Dear Sir

Re: MALDON GOLD PROJECT

The Directors of Alliance Resources Limited (Alliance) (**ASX Code: AGS**) announce that the Share Sale Agreement by which Drummond Gold Limited (Drummond) was to acquire Maldon Resources Pty Ltd (Maldon) from Alliance Resources Limited (Alliance) has expired as Drummond was unable to satisfy the conditions precedent to the agreement.

Alliance has received a number of indications from third parties expressing interest in Maldon and will shortly commence discussions with those parties to determine the best option for Alliance shareholders and for the project going forward.

The Maldon Gold Project is 30 km southwest of Bendigo where historic production from reef mining is reported as about 1.95 million tonnes at an average grade of 28 g/t for 1.75 million ounces of gold. Alliance undertook major development work at Maldon aimed at bringing the Alliance South gold lode into production. This development work was subsequently suspended in late 2008 so as to conserve cash to meet Alliance's commitments to the Four Mile Uranium Project. The decline and other mine infrastructure, including an operational-ready CIL gold treatment plant, have been fully maintained.

Further information relating to the Company and its various exploration projects can be found on the Company's website at www.allianceresources.com.au.
